Business Applications

Note: For each app we've added the designation of AppFoundation or AppServer, the two offerings of CorasWorks in the Cloud.

- [Library Catalog Management \(by Quasar Apps\)](#) - Quasar Apps has joined the publisher tide with this robust app for corporate library management. Drawing on their background in Information and Knowledge Management this app makes library management a snap. (Type: Business Application, Runs On: Workplace Suite/AppEngine; AppFoundation, Price: FREE)
- [CW Project Portfolio Management v1.2 \(by CorasWorks\)](#) - This major feature release pushes PPM further into providing a comprehensive way to manage your project environment on SharePoint. It provides a 4th module for a Program Management Office (PMO) with a flexible, governance process. It also now supports integration with MS Project leveraging the Team Direction IntelliGantt sync technology. (Type: Business App, Runs On: Suite and Toolset; AppServer, Price: FREE to PASM Customers)
- [Marketing Campaign Hub \(by Future Structures, LLC\)](#) - A collaborative hub for managing the information and calendar for marketing campaigns. (Type: Business App, Runs On: Suite or AppEngine; AppFoundation, Price: \$500)

Resources

- [App Basics: Your First App—Putting Apps to Work](#) - This 13-minute video tells you everything you need to know about downloading, installing, configuring, and customizing apps from the App Store.
- [Whitepaper: Enabling Application Evolution](#) - Visit our Architect's Library and download this whitepaper that provides information on evolving your applications using CorasWorks. Evolve from basic, single-site, single-list apps to more complex, database-driven app systems, based on your user demands.

Forums & Blogs

- [New Applications Category in Forums](#) - We have added a new category for Applications in the Forums. This is for both General Discussion and specific Apps. We recommend you use this to post questions you may have on any of the apps developed by CorasWorks or our App Publishers.
