April 29, 2010

Welcome to the April 29 edition of the CorasWorks Community Update. CorasWorks hits the road this month with our first wave of mobile-enabled applications, powered by the new CorasWorks Mobile Adaptor. All the mobile-enabled apps and the Adaptor are now available for download. Check them out under the Apps section below.

News and Events

- **Mobile-enabled Apps** - Today, we are announcing our first three mobile-enabled applications and our brand new CorasWorks Mobile Adaptor. Visit our new [Mobility page](#) for more information or check out the [press release](#).
- [SharePoint Saturdays](#) - We're also hitting the road at various SharePoint Saturday events around the country. Come visit us at one of the upcoming free events. Click the "Events" tab on the page for more information.
- [Events: PPM Webcast](#) - Here's your chance to see one of our mobile-enabled apps. Join us to see how we've added mobile functionality to the PPM.
- [CorasWorks Training Courses](#) - We've got our May and June training dates posted. Attend our classroom training or participate in our distance learning—whatever works best for you.

Community Highlights

Remember to Login to see all information and access contributor features. [Click here if new to community](#).

Applications

- [Project Portfolio Management v1.3](#) (CorasWorks) - We've mobile-enabled PPM so you can now track KPIs and project status, add and update items, and even approve requests straight from your cell phone.
- [Help Desk with Self Service v1.3](#) (CorasWorks) - We also have a new mobile-enabled version of our popular Help Desk app. Add and view support requests while on the road.
- [Knowledge Base v2.0](#) (R3 Business Solutions) - R3 has published a new version of its Knowledge Base app, which now includes a deeper, richer feature set, including mobile functionality.
- [CorasWorks Mobile Adaptor](#) - This server-side technology is what makes our mobile functionality possible. It is available for download right now.
- [Community Services Suite v1.2](#) (Spirit EDV-Beratung) - This new v1.2 release has been expanded with a 5th module for feature rich micro-communities. The new module allows you to quickly add micro-communities to any site with star ratings, tags, tag clouds, tag categorization (taxonomy), search, commenting, and quick comments. This robust solution is ideal to create Communities, Portals, Intranet Gateways, Extranets, and to enhance your Internet sites.

Blogs & Forums

- [CorasWorks Mobile Gateway \(Apps Blog\)](#) - The CorasWorks Mobile Gateway is a site template that makes it possible for you to provide structured access to CorasWorks applications that are mobile enabled. Read more about it.
- Adam Macaulay's Blog - Adam has been busy posting about the new SharePoint 2010:
 - [I want my create page back!](#)
 - [SharePoint 2010 RTM REST Implementation](#)
 - [I need to upgrade the site templates to 2010](#)
 - [I need to create how many site templates and solutions?](#)
